

cabus and cabus pure living

cabus

Details which are typical for TEAM 7 such as slot-and-pin connections for the frame and base, finger-jointed drawer and solid wood fronts sorted by hand highlight the quality of the craftsmanship of the entire **cabus** range. The 25 mm thick top board emphasises the solid construction of the **cabus** range. A glass table top can also be selected as an option. The modular cabinet system can be individually configured with 13 heights, 5 widths and 4 depths.

cabus pure

The central design feature of the **cabus pure** living range is the delicate coloured glass which surrounds the fronts like a passe-partout frame. The fine glass edges and recessed plinth provide a light, floating visual appearance. The glass sides can be easily exchanged using connection adapters developed and patented by our engineers. The modular **cabus pure** cabinet system with 13 heights, 5 widths and 4 depths can be configured to suit your needs.

cabus, cabus pure and cabus quadrat

Units can be equipped with a free choice of various components (hinged door, drawers, flaps).

slide h 12.6 cm only for **cubus** (gloss or matt)

cubus pure slide h 14 cm only for **cubus pure** (stainless steel finish or matt bronze)

design elements

design elements

The design elements are open units made of pure solid wood, which integrate perfectly into the TEAM 7 element system. Whether as a free-standing suspended solo piece, or combined with or flush-mounted in sideboards, dressers, wall units, and kitchens, the design elements offer space to present decorative accessories – similar to a display case.

The display-cabinet character can be accentuated with optional all-glass doors. These hinged doors made of transparent glass available in clear glass, smoked glass, or palladium. The back panel of the design element is available in a choice of coloured glass or wood.

partition modules

At the smallest element depth (25.8 cm), partition modules and a divisions rod encased in leather can be manoeuvred freely to provide a simple structure to the interior. These partition modules can be arranged or combined in any way you wish.

leather divisions

lighting

The design elements can be supplemented with dimmable LED lighting upon request. Here you can choose between round, adjustable spotlights and square, flush-fitting lights.

types of wood

Unless stated otherwise, all wooden surfaces are finished with pure natural oil.

pearl (matt only)

bronze (matt only)

steel (matt only)

colour patterns

Wood is one of the most noble, beautiful and versatile natural products we have. Every piece of wood is unique. Differences in colour are a result of the wood's structure and place of origin. Similarly, the age of the piece of furniture will determine its colour, as natural factors in your home's environment (e.g. sunlight) can change the surface colour. When your order specifies a particular colour, we do our best to match it. But minor variations in wood, leather, glass and ceramic are inevitable. An exact colour match will never be possible.

*wild arrangement only available on fronts and table tops

**venetian oak is only available for fronts
